great...we will make all of the arrangements. -L

Denise - could you please get a video conference room?

Valerie - could you please put in on the WSA calendar?

Thanks to all,

-L

great...thanks for your suggestions.

also, would you be able to give your ETS consensus on 6/15?

thanks,

Loreen,

I have no suggestions for specific dates; however, I do have a number of suggestions of two technical seminars that folks from Neuchâtel could give in the near future. Matthias could present the project he and Don Leyden did that will be presented to TSRC in the fall from the Probit project at any time. For later in the year it is possible, although not certain, that Ruth could give a presentation on the design of the low tar epidemiology study (assuming we get approval for the project), Tony could give a presentation on the design for a "molecular epidemiology" study on smoking cessation (assuming we get approval for the project), and I could give a presentation on active smoking and trends in adenocarcinoma (assuming a find the time to do the work).

I'll keep you posted on how these three items progress.

All the best.

Ted

**Subject:** Technical Seminars

Dear All:

I would like to schedule the Technical Seminars for the remainder of the year, but need your help. Would you/could you suggest some topics/presenters that can be given on the following dates?

To accommodate our Asian colleagues, these seminars are usually scheduled for one hour (from 9am - 10am) and is information that can be shared to the Department for their information.

<u>Date</u>	<u>Topic</u>	<u>Presenter</u>
Friday, June 15	ETS Consensus?	Ted Sanders
Monday, July 16		
Wednesday, August 15		
Thursday, September 13		
Monday, October 15		
Thursday, November 15		
Thursday, December 13		

Thanks for your help.

-L
